PROFESSIONAL SUMMARY

Backend Software Engineer with nearly 3 years of experience building Core Java and Spring Boot web applications and web services for Changi Airport Group. Lead TREX-side delivery of Singapore's Beverage Container Return Scheme, single-handedly shipped DocuSign merchant onboarding for 200+ merchants, and built TREX AI, an LLM-powered catalogue service that has enriched 100,000+ products and cut manual catalogue QA effort by 70-80%.

PROFESSIONAL EXPERIENCE

CJSS Technologies Pvt. Ltd. - Software Engineer **Jan 2024 - Present | Hyderabad, India**

Client: Changi Airport Group (CAG) | TREX marketplace platform and iShopChangi (ISC) on SAP Commerce Cloud

TREX and iShopChangi - Cloud-Native Marketplace and SAP Commerce Storefront | *Java, Spring Boot, GraphQL, AWS*

- Build and maintain Java/Spring Boot microservices and REST/GraphQL APIs for product, pricing, order, merchant, contract, and promotion workflows on AWS Lambda, AppSync, ECS, and DynamoDB.
- Single-handedly designed and delivered DocuSign digital-signature merchant onboarding end to end; 200+ merchants onboarded through pre-populated agreements, recognized by Changi Airport Group.
- Integrated TREX with SAP Commerce Cloud (catalog sync, pricing, promotions, orders) and Okta authentication; build iShopChangi OCC APIs, custom extensions, and populators/converters.
- Resolve production defects, tracing backend and database bottlenecks with Dynatrace and Datadog; write JUnit and Mockito tests, validate releases, and mentor junior engineers through code reviews.
- Deliver in two-week Agile sprints in Jira, documenting requirements and release notes in Confluence and promoting biweekly releases DEV → QA → business sign-off → PROD.

TREX AI - Catalogue Enrichment Platform (AI & Innovation) | *Python, FastAPI, OpenAI, Gemini, AWS Bedrock*

- Designed and delivered an LLM-driven enrichment and audit service that has enriched 100,000+ products and cut manual catalogue QA effort by 70-80%.
- Built a multi-provider LLM router (OpenAI, Gemini, AWS Bedrock) with merchant- and operator-specific prompts and DynamoDB-backed rules, so guideline changes need no redeploy.
- Added vision-based image validation, delta suggestions, and human-in-the-loop field-level review, integrated into TREX product flows through GraphQL mutations and admin configuration.

BCRS - Beverage Container Return Scheme | *TREX lead, go-live Nov 2026*

- Lead TREX-side design and development of Singapore's 10-cent container deposit across all Changi merchants: product eligibility, approval flow, bulk upload, and deposit in order payment details.
- Built SAP Commerce refunds, Master Sales Report, receipts, and emails; led requirements and the end-to-end business demo.

PROJECTS

Zaiqa - Hospitality Operations Platform | ***Java 21, Spring Boot, Spring Modulith, PostgreSQL, React*** **Building now**

- Designed a modular monolith of 14 Spring Modulith-verified domain modules for hotel PMS and restaurant operations, with branch-scoped JWT/RBAC across seven roles and Flyway-managed PostgreSQL.

Multi-Agent RAG Platform | ***Spring Boot, FastAPI, Gemini, Qdrant*** **Independent project**

- Built an end-to-end RAG pipeline with Qdrant vector retrieval, metadata filtering, and RBAC across specialized agents.
